Electrical consumption meter visualization

22/10/2020

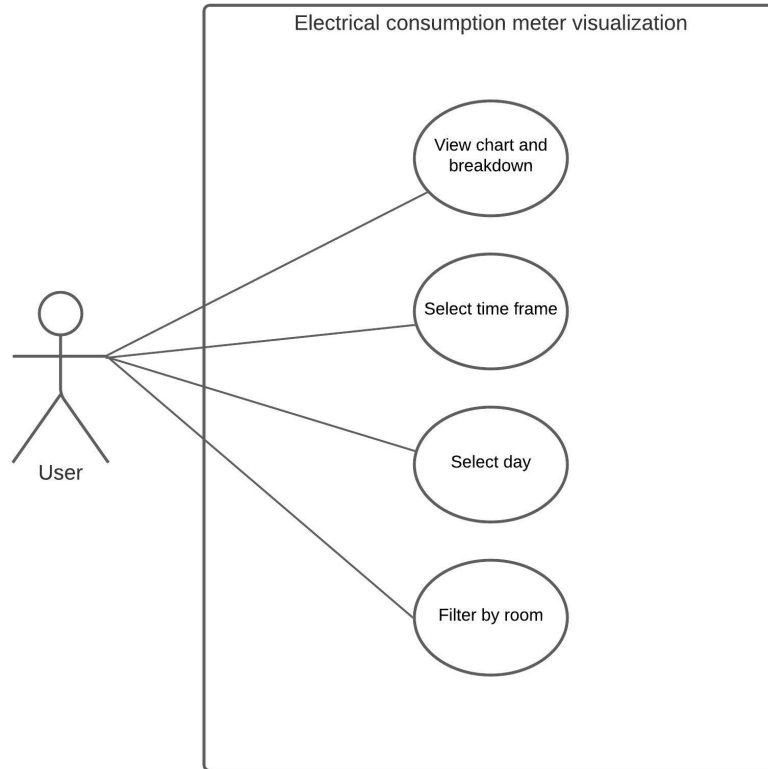

Figure 1: Use case diagram.

## 1 Introduction

For this project, a use case diagram for the “Electrical consumption meter visualization” system was created. A process model was the developed using YAWL, the patterns that were used are analyzed in this report.

## 2 Use case diagram

A use case diagram was created to describe user interactions with the system. The diagram is displayed in Figure 1.

## 3 Process model specification

A process model was created using YAWL, it is displayed in Figure 2.

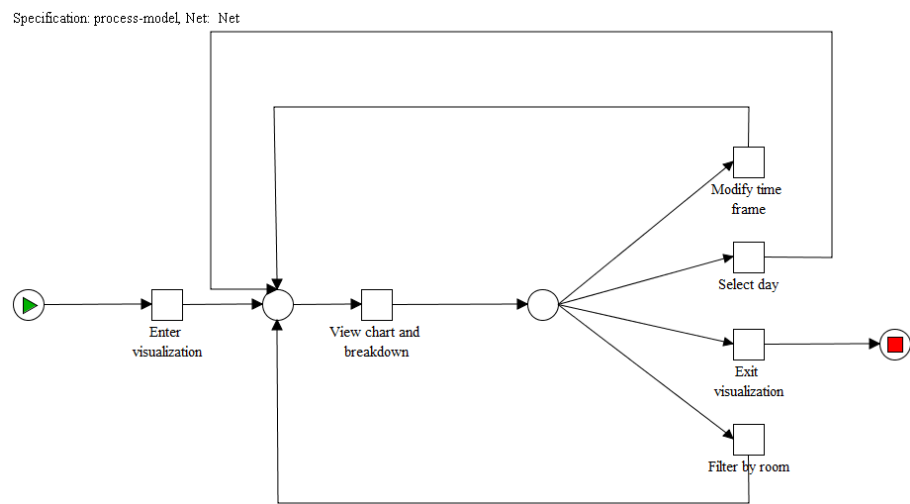

Figure 2: Process model.
